

IKLOUD THE 1st WI-FI CONTROL SYSTEM FOR PROFESSIONAL WAREWASHERS MACHINES

OPTIMISE YOUR WASHING SYSTEM

Graphics that are simple to understand makes it easy to know how the machine is being used. It also allows for immediate verification of efficient use.

- ✓ The warewasher is on Stand-by mode for too long?
- ✓ Or period of time from initial switch on to first cycle being run is too long?

Reading the graphics and changing the settings is simple. Set automatic switch on and off.

Optimum use of the warewasher will ensure **money-saving** and perfect result.
