

ADVANCE RANGE C537T-S

TYPE	Undercounter warewasher
LINE	ADVANCE RANGE
BASKET	500x500
SIZE	585x600x815h

The three-phase undercounter dishwasher **C537T-S** is designed for professional environments with **hard water**, where avoiding limescale buildup and maintaining consistent washing quality is essential. The **integrated automatic water softener** manages regeneration cycles autonomously based on water hardness and activates during operation without stopping the machine. The display alerts when salt refilling is needed. With the included racks, it can wash glasses of all shapes and **up to 18 plates (Ø max 395 mm)** per cycle, with a maximum productivity of **720 plates/hour**. The **ADVANCE** control panel offers 4 wash cycles and one automatic drain cycle (with installed pump), with simplified management through the display and full access to all parameters. The **SMART START** button allows constant monitoring of machine status, changing color according to the phase. The electronic board controls time and temperature settings, activating **Thermostop** to ensure constant hygiene. The standard **dual detergent and rinse aid dispenser** optimizes consumption. Structure in **AISI 304 stainless steel** with front-access components for fast maintenance.
